

## Corporate Overview

**FOUNDED IN**  
**1973, Istanbul**

More than 50 years of experience  
in automotive sector

**FOCUS**  
**Deep Drawing**  
**Safety Segment**

**PEOPLE**  
**52**

**MANUFACTURING FACILITY**  
**3,870 sqm**

Production 2,800  
Offices 670  
Warehouse 400

**VALUE-ADDED OPERATIONS**  
**Customized Processes**

Automotic Welding  
Manual Welding  
Laser Welding  
Stud Assembling  
Washer Assembling  
Side Piercing

**MACHINERY PARK**  
**Transfer - Mechanical**

## Ustun Makine

Founded in Istanbul  
Car lighter manufacturer

## Tofas/Fiat

approved supplier

## Oyak/Renault

approved supplier

## Autoliv

approved supplier

## Stamping

division established

## Relocation to

new plant in Kocaeli  
(IMES Dilovası Organized Industrial Zone)

## Takata (Joyson)

approved supplier

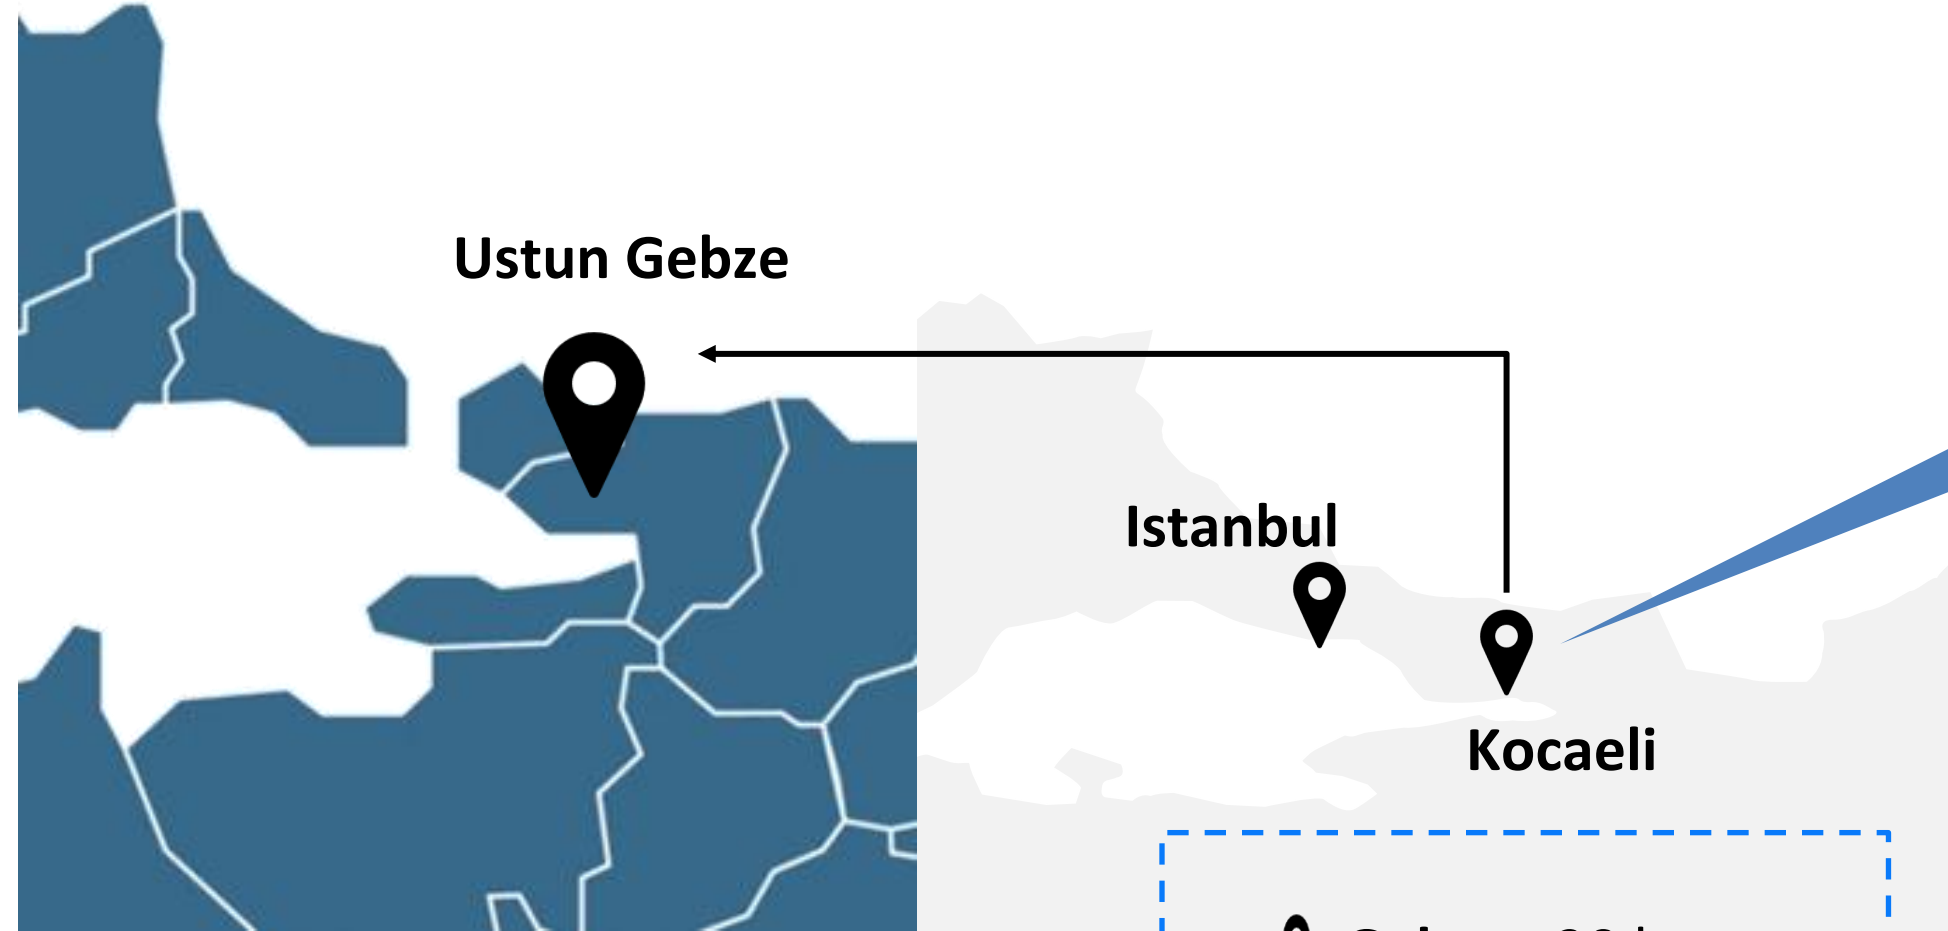

Acquisition by **TEKNIA** Group

Teknia Gebze plant reacquired and renamed as **Ustun Gebze Makine**

# Location

Gebze ~20 km  
Izmit ~60 km  
Bursa ~125 km

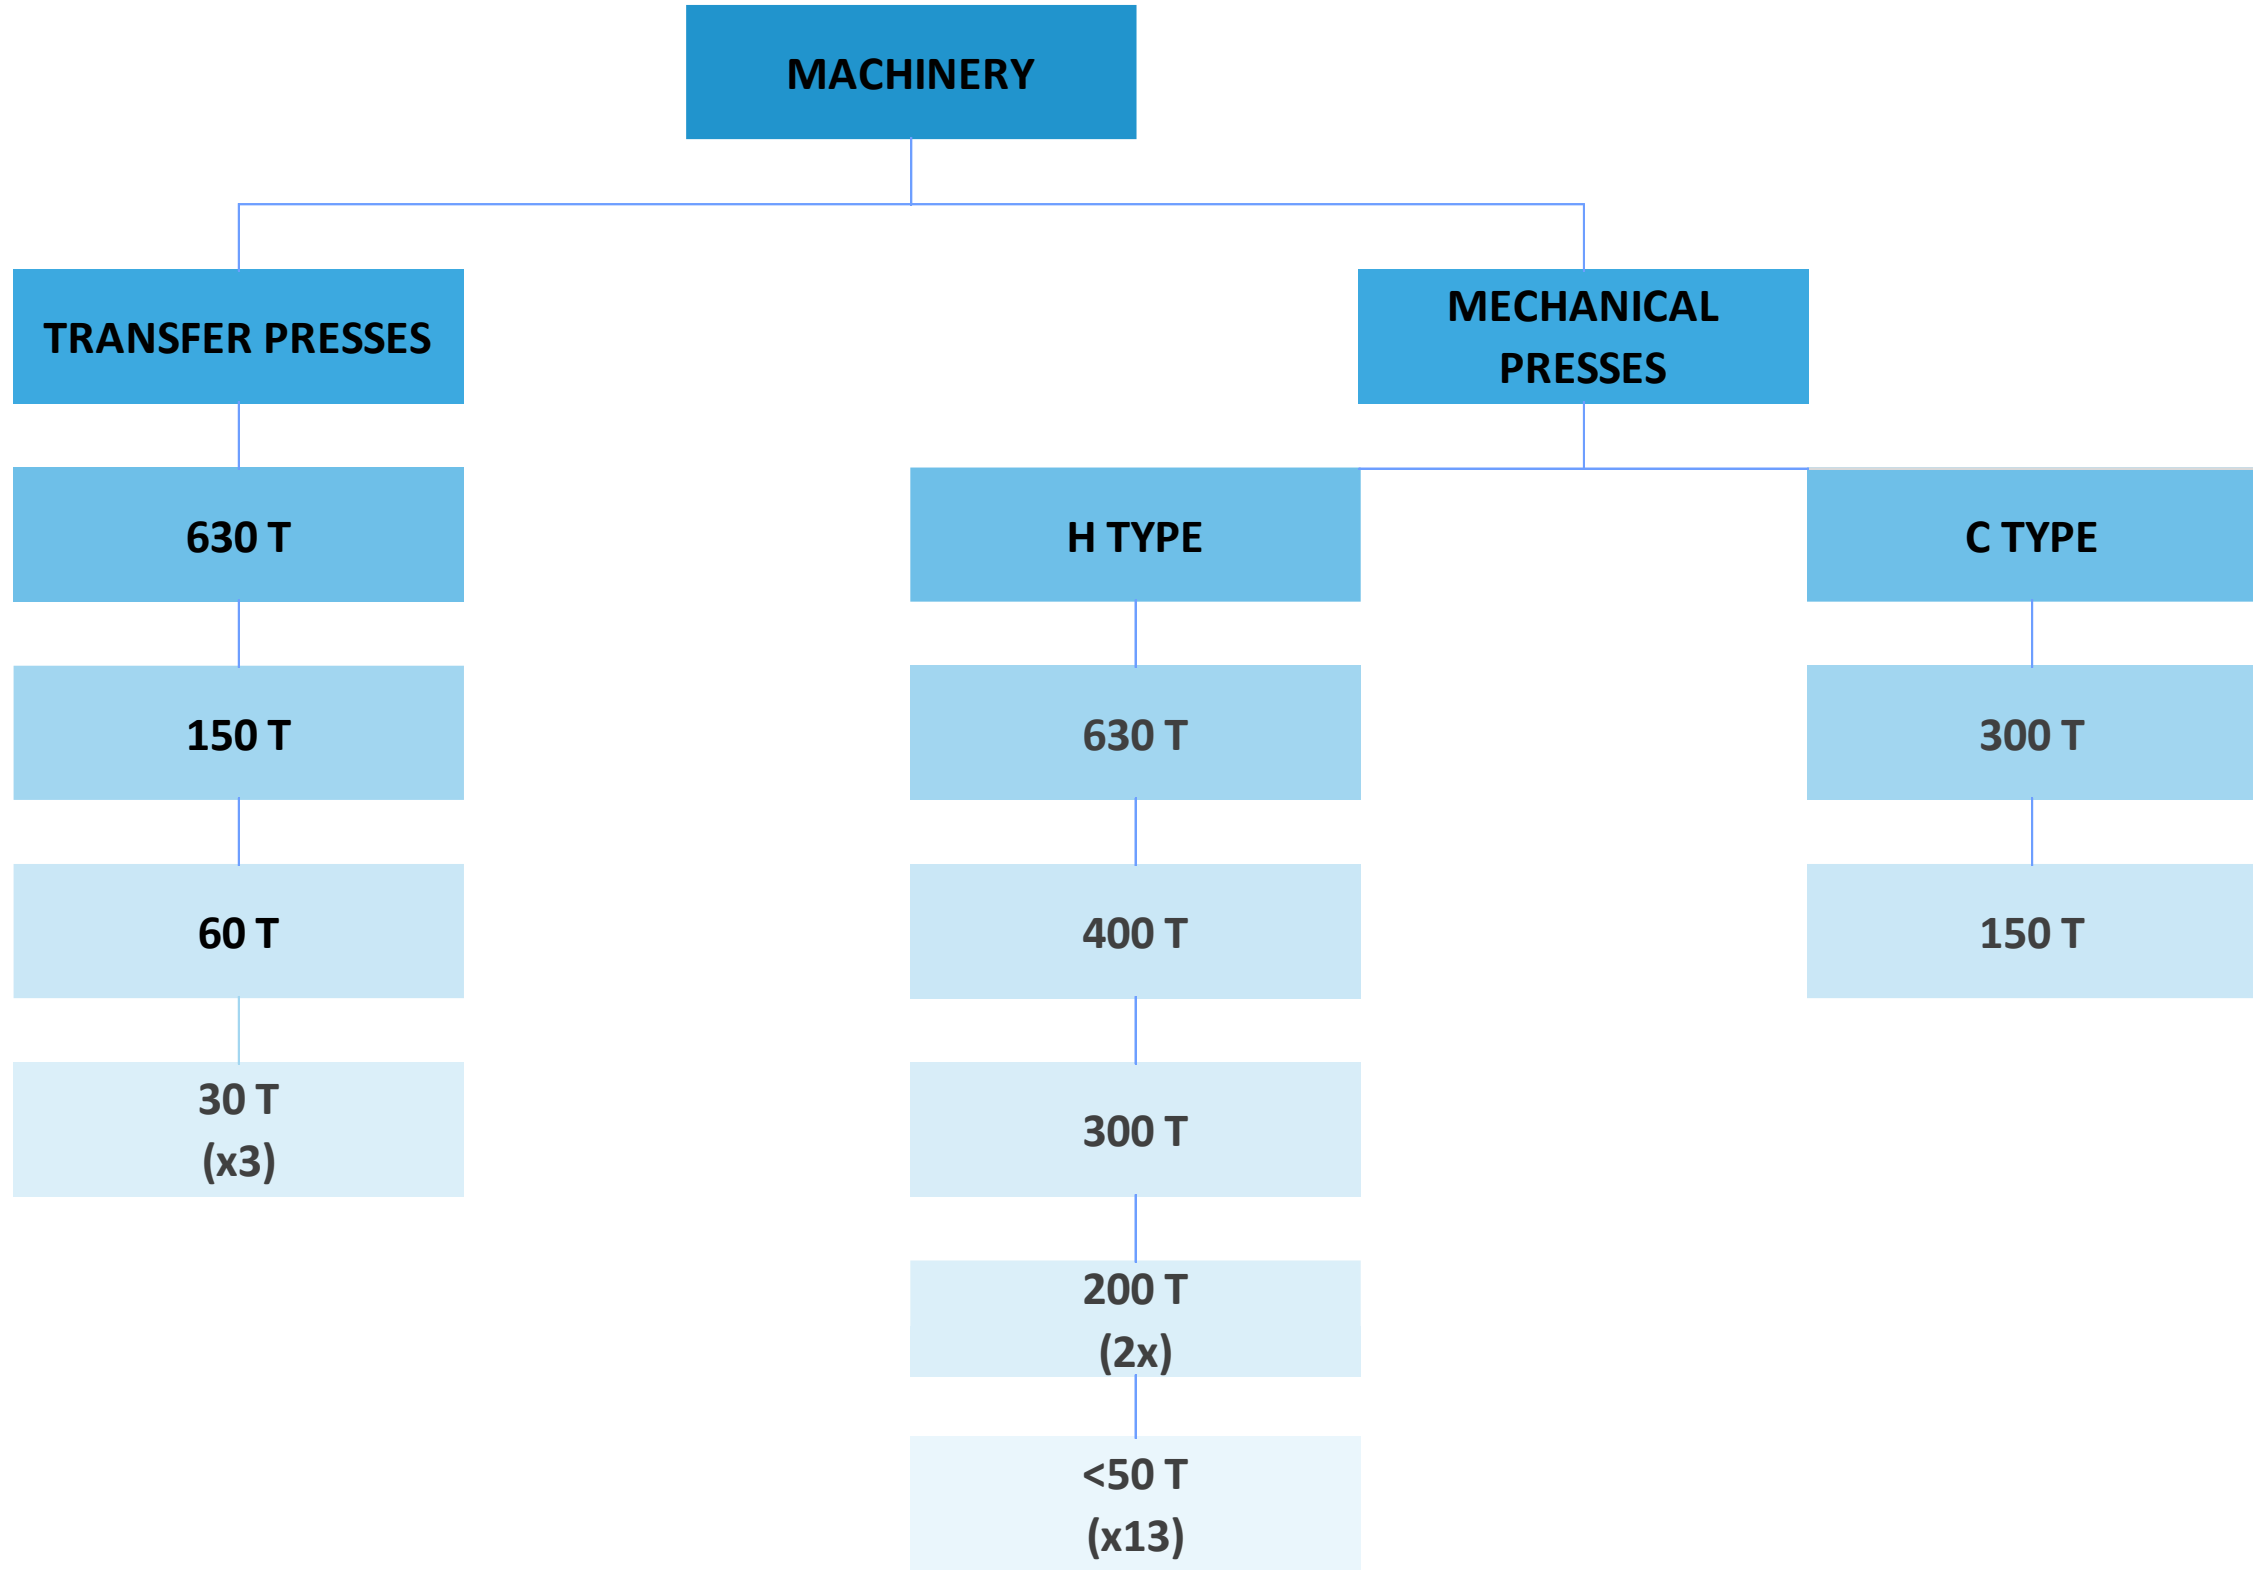

**İMES**  
ORGANİZE SANAYİ BÖLGESİ

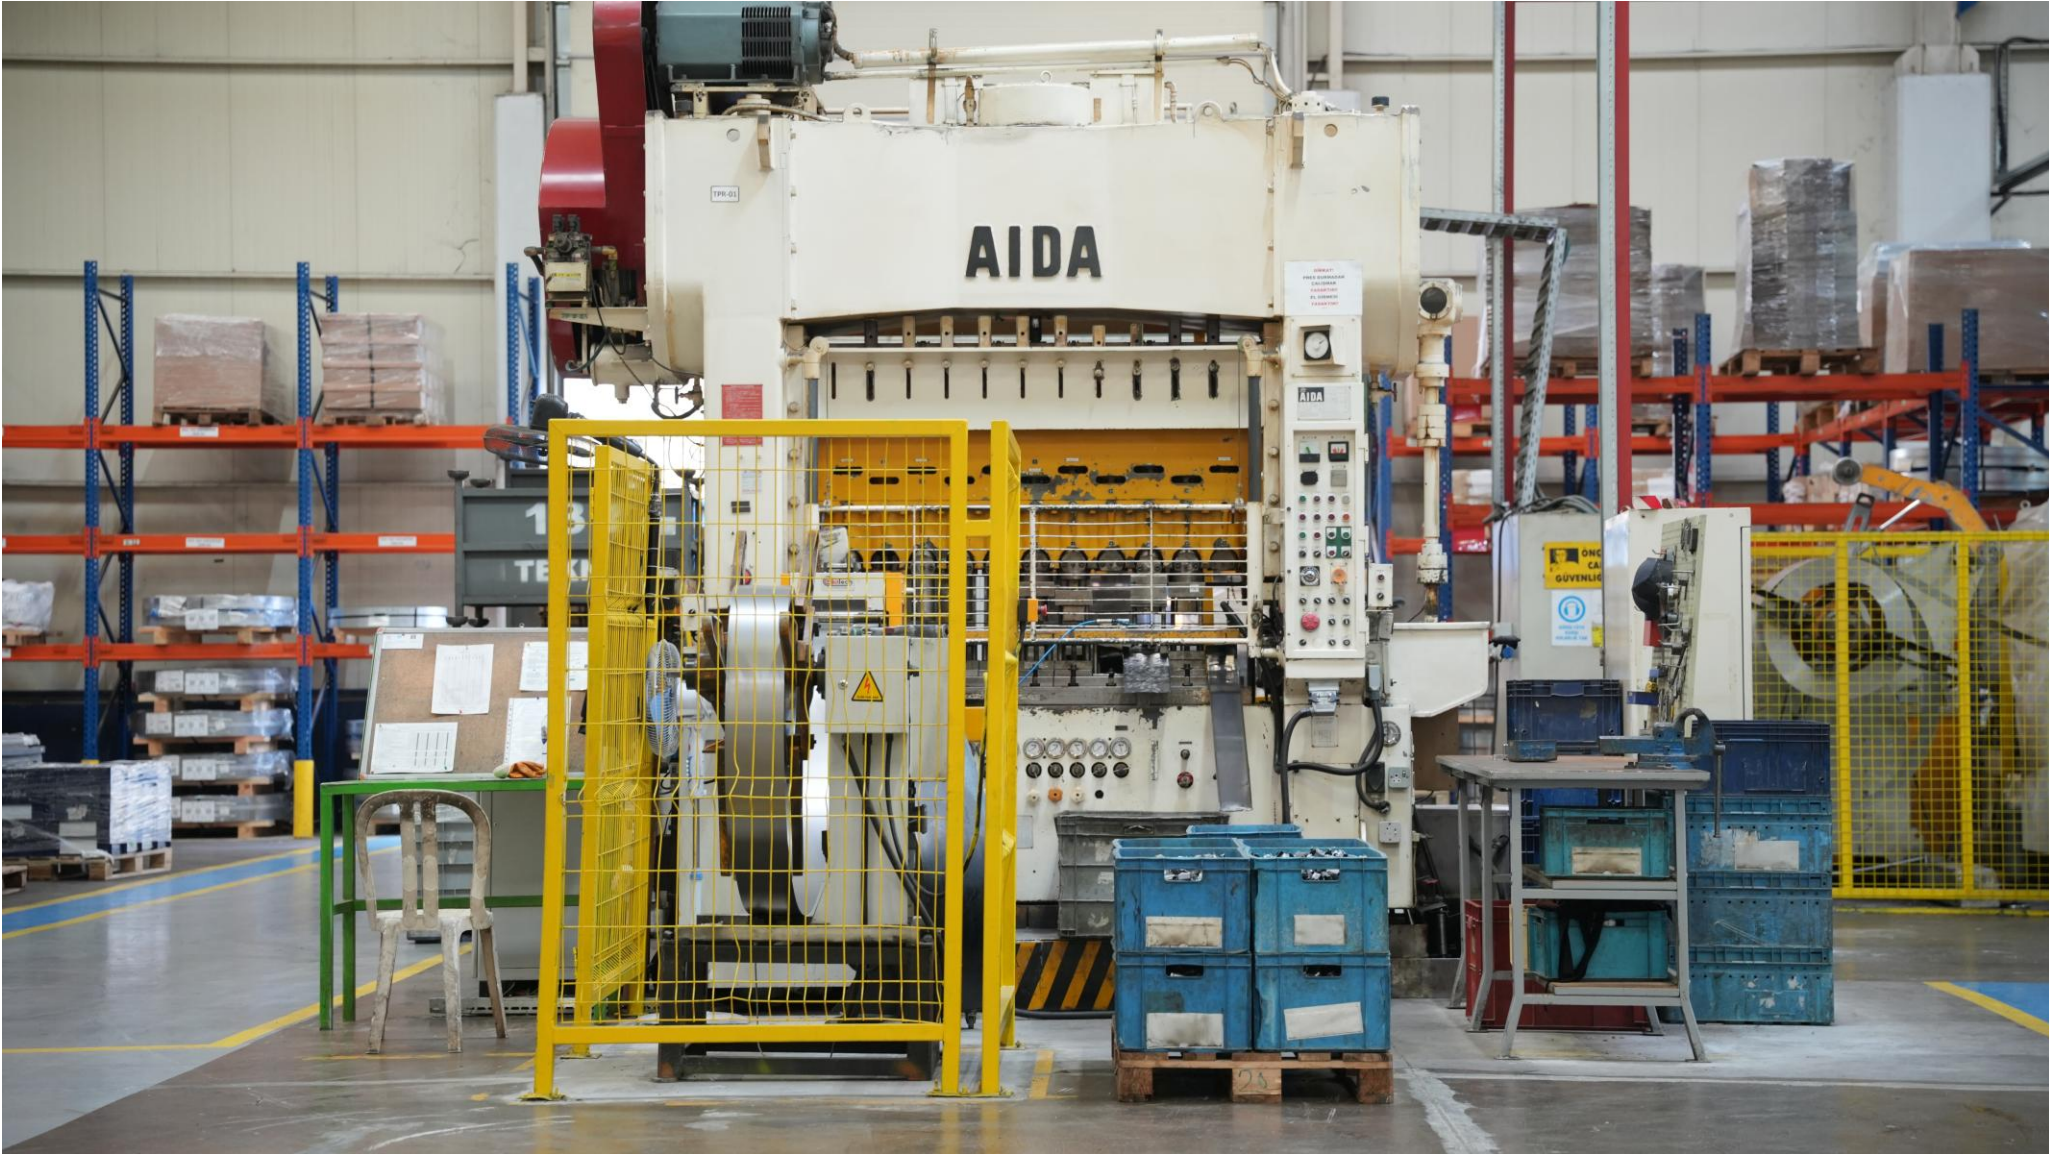

# Manufacturing Capabilities

- UGM is equipped with a versatile and high-capacity machinery park, delivering reliable and efficient production solutions tailored to customer needs
- Press line includes both transfer and mechanical presses
- Thanks to its wide tonnage range, UGM can produce a broad spectrum of parts, ranging from small, high-precision components to large, deep drawn parts, all with consistent quality and performance

# Manufacturing Capabilities – Machinery Park

## In-House Processes and Technologies Geared for Efficient and Reliable Production

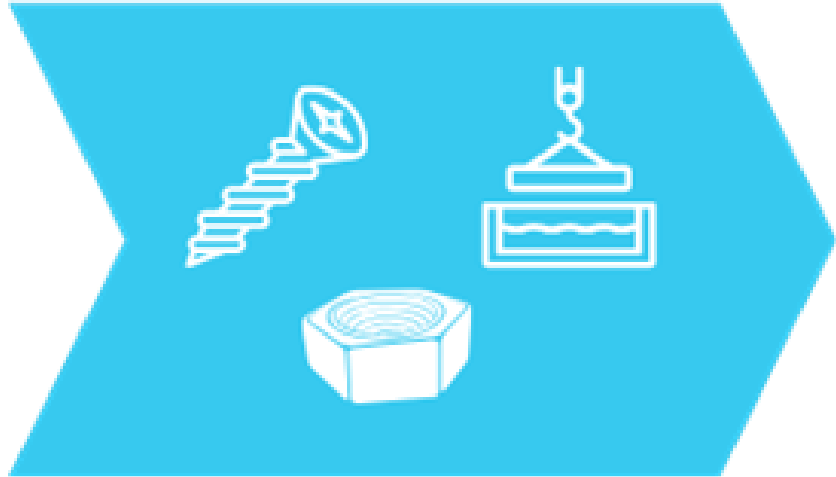

Stamping

Cleaning/Deburring

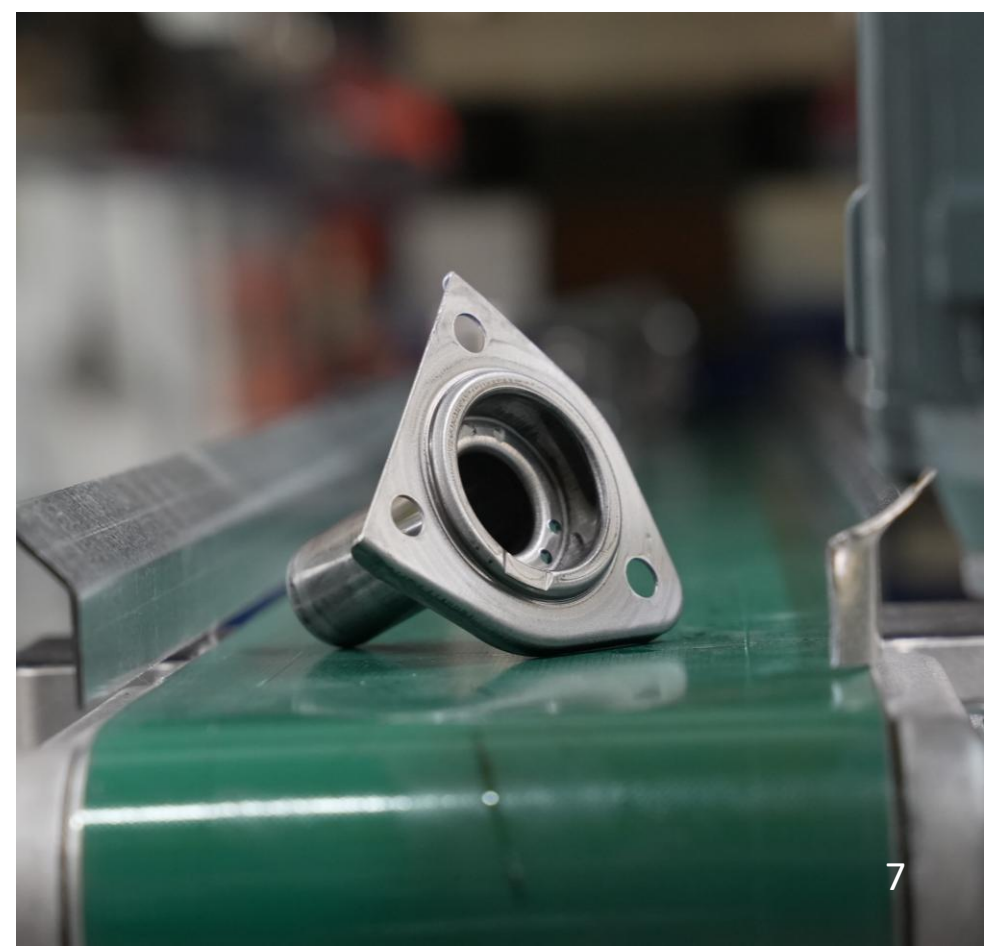

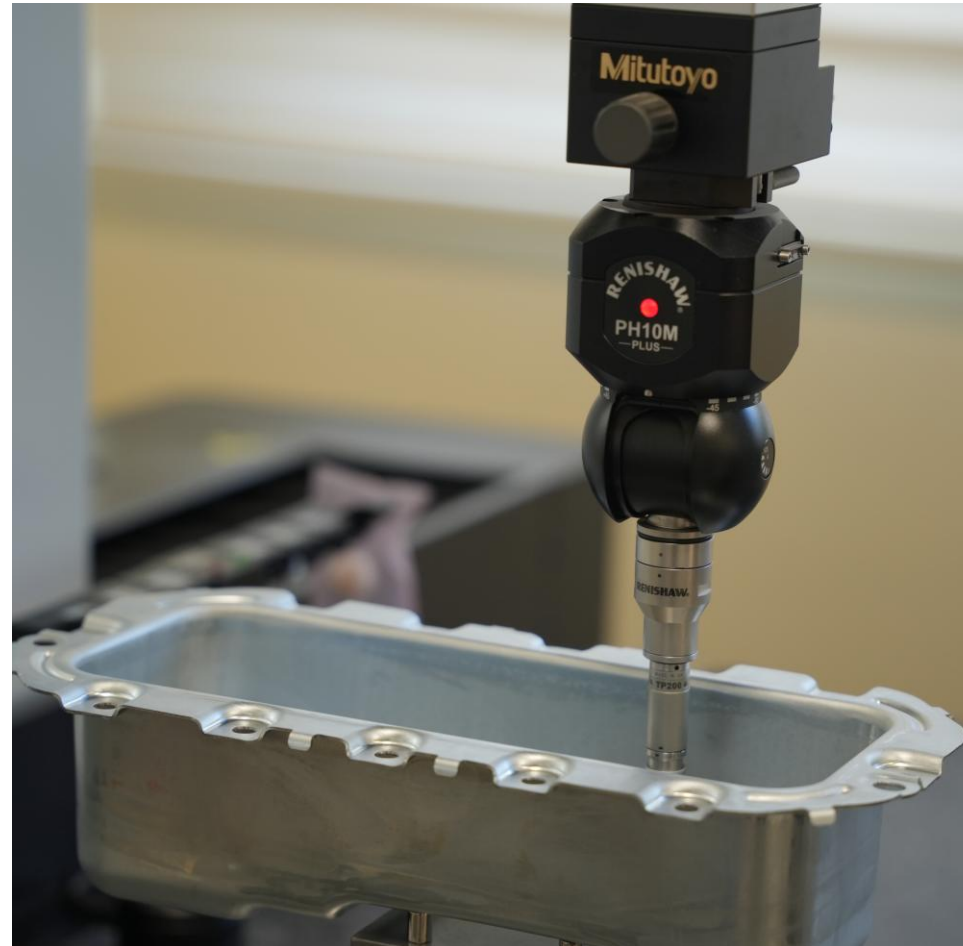

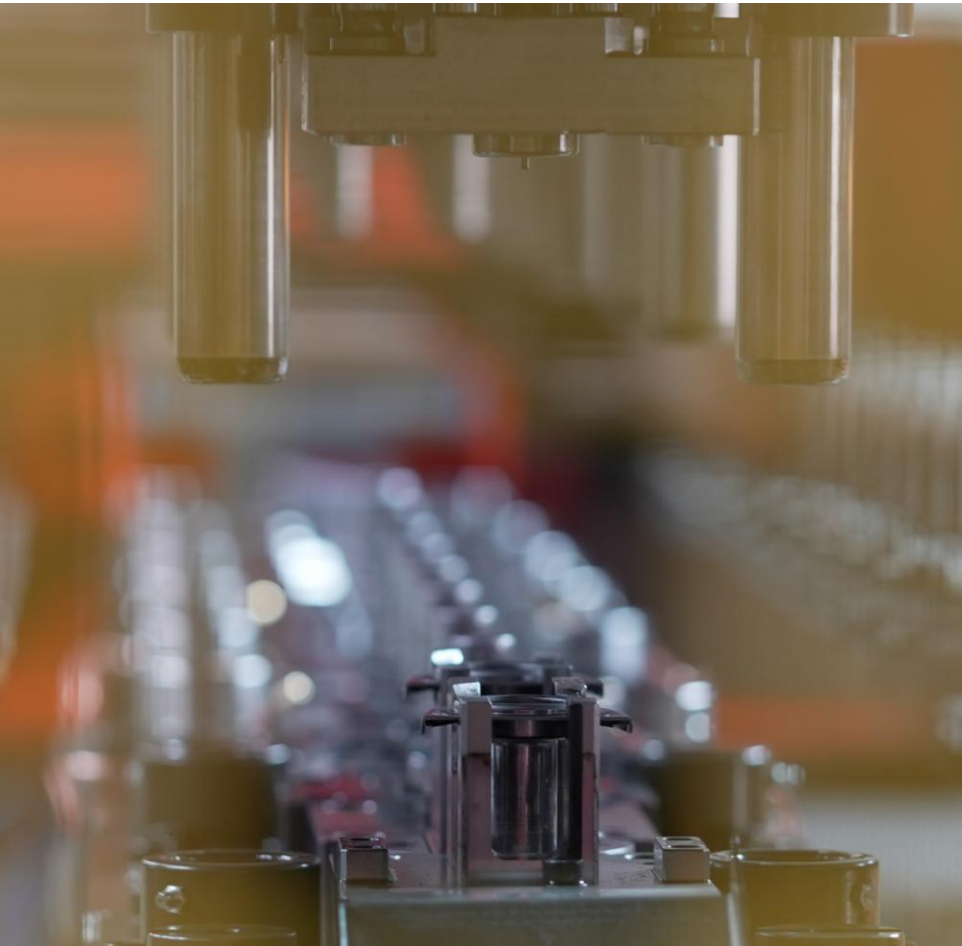

Assembling  
Welding  
Coating <sup>1</sup>

# High Value Added Product Line

## Global Reach

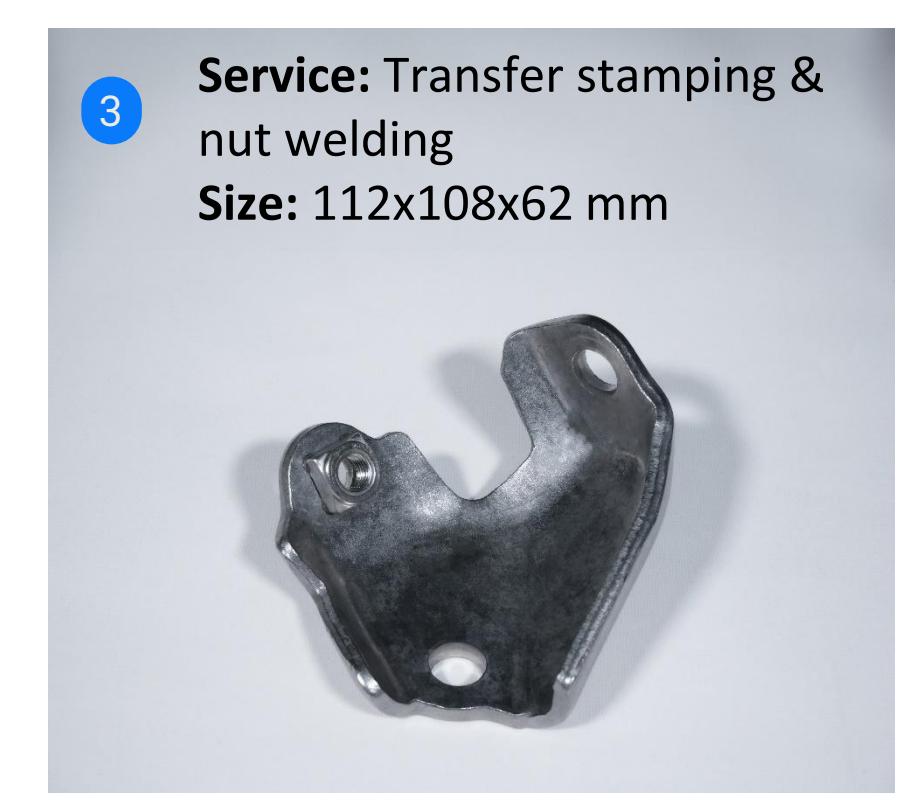

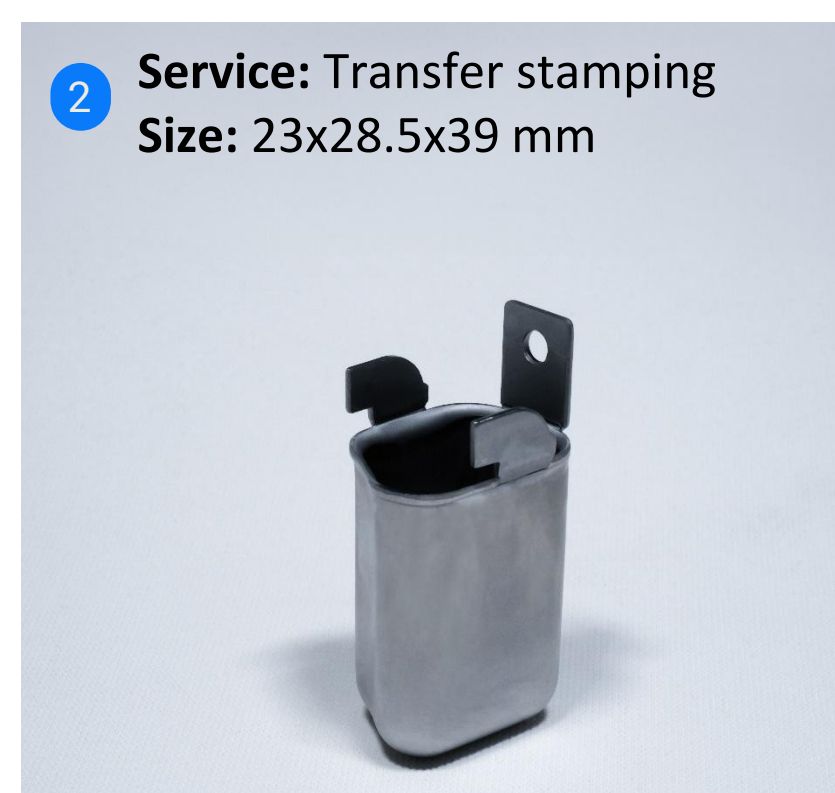

UGM focuses on deep drawing and small to medium-sized stamped assemblies for domestic and international markets, adding value through welding, assembly, and project-specific investments

## High quality and technical specialization

Technology expertise, product specialization, high product quality and know-how and technologies

## Components

- 1 Airbag
- 2 Seatbelt
- 3 Exhaust
- 4 In die thread weld bracket
- 5 Precision parts – Tube Guide
- 6 Contact plate
- 7 Inflator

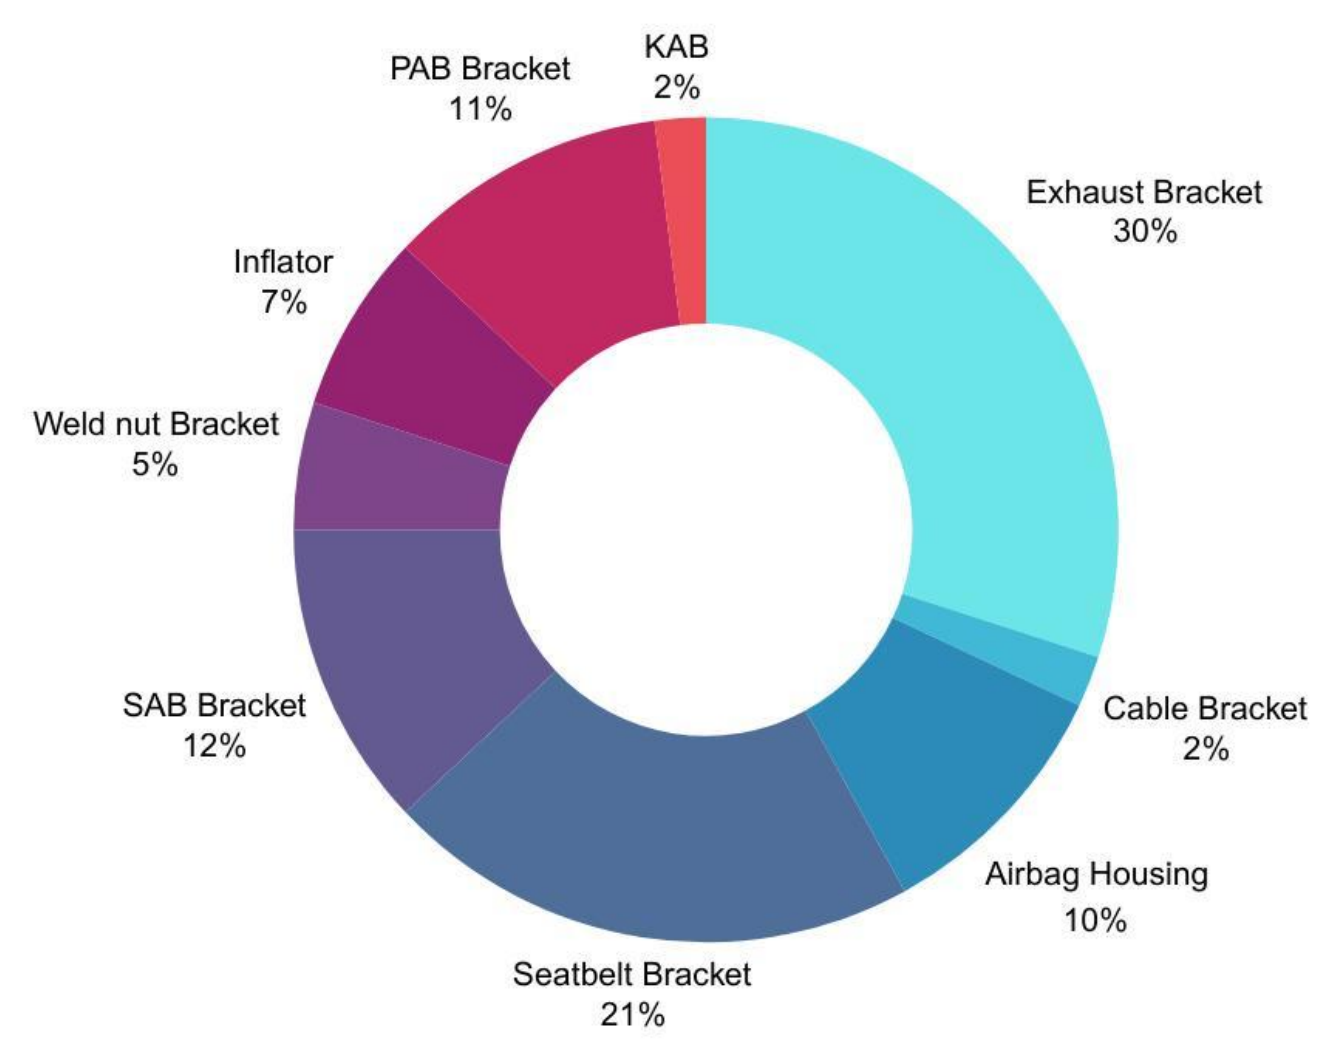

# Product Distribution

## Focus on Safety Segment

### Diverse Product Categories

With more than 50 years of experience as a manufacturer, Ustun Gebze is a reference partner for traditional customers and new market players

**Autoliv**

**FORVIA**  
faurecia

# Commitment to Quality

## Compliance with International Standard IATF 16949

- Quality policy designed to meet requirements of major OEMs and Tier-1 customers
- Demand for excellence and commitment to "zero defects" policy, implemented and applied across the organization, and supported by several key systems
  - PDCA
  - Lessons learned
  - Continuous improvement
  - Quality tools

IATF 16949:2016

ISO 9001:2015
